

Adeline YUEGO

(She/Her)
Cameroon

Adeline YUEGO is the Head of the Regulatory Acts and Prospective Unit at the National Radiation Protection Agency in Cameroon. In this role, she is tasked with preparing and monitoring the implementation of laws, regulations, and standards related to radiation protection, safety, and nuclear security. Additionally, she is responsible for developing the Radiation Protection Training Programme.

Adeline has extensive experience in conducting radiation protection inspections of both medical and industrial facilities. She has also worked on implementing radiation protection measures for the transport of radioactive sources and nuclear security measures for Major Public Events (MPE). Her efforts include training workers exposed to ionizing radiation.

In her professional associations, Adeline is an active member of the Black Sea Women in Nuclear Network (BSWN), the Institute of Nuclear Material Management (INMM), Women in Nuclear (WiN) Global and WiN Africa. She serves as the Partnership Manager for the WiN Global Young Generation.

As a Nuclear Ambassador, Adeline promotes the use of nuclear energy in Africa to address the energy crisis, combat climate change, and support the continent's development. She is dedicated to fostering the exchange of knowledge and experience to enhance global initiatives aimed at achieving gender balance in the nuclear sector. In recognition of her significant contributions, Adeline was honored with the WiN Global 'Nuclear Future Award' 2024.

MENTORSHIP TOPICS

Topic 1: Unlocking the Power of Connections: Mastering Network Membership for Success

Networking has always been an essential ingredient for success. Regognizing the importance and navigating the challenges of networking requires a strategic and authentic approach.

Be proactive in reaching out, providing value, and building genuine connections.

Industry events remain crucial for networking. Attend conferences, seminars, and webinars to meet like-minded professionals. Be prepared with a clear elevator pitch, ask thoughtful questions, and actively listen to others. Seek opportunities to collaborate and exchange knowledge.

Building meaningful connections requires authenticity and nurturing relationships over time. Focus on quality over quantity. Be genuinely interested in others, follow up after initial interactions, and offer support when possible. Show gratitude for the connections you make and maintain regular communication to strengthen relationships.

Remember, networking is not just about what others can do for you, but also about how you can contribute to their success. Cultivate a mindset of giving and reciprocity. Share valuable resources, make introductions, and be a connector within your network. By mastering the art of networking, mentees can tap into a vast pool of opportunities, collaborations, and mentorship.

Duration: 3 to 4 sessions of 1 hour
