

BSWN Mentorship Catalog

Rev. 4/Oct. 2024

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
1)	BIOLOGICAL AND CHEMICAL SECURITY	Biological and Chemical Security	The course will address the international frameworks governing biological and chemical security, focusing on the prevention of biological and chemical weapons, response to security threats, and enhancing national and institutional security practices.	2-6 hours	Fatma Cengiz / Turkiye	English, Turkish
2)	CBRN	CBRN Security	The course will provide information about the international regulatory framework for countering CBRN security risks, responses to CBRN hybrid threats, and national and institutional approaches for enhancing CBRN preparedness.	~ 2-6 hours (depending on needs) consisting of presentations, discussions, consultations.	Tatyana Novosiolova / Bulgaria	Bulgarian, English, Russian
3)	CBRN	CBRN Preparedness and Risk Assessment	This course will cover CBRN risk assessment methods, focusing on preparedness strategies, emergency response plans, and best practices for mitigating the risks associated with chemical, biological, radiological, and nuclear threats.	6 hours	Fatma Cengiz / Turkiye	English, Turkish

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
	DEVELOPMENT OF NUCLEAR PROGRAM	Romania and its civil nuclear program	The course will provide information about Romanian civil nuclear program – past, present and future (2 CANDU Units in operation, 2 CANDU Units in completion, SMRs, fuel cycle, waste management, R&D, regulation and nonproliferation)	2 lectures, each 60 minutes	Elena Popescu / Romania	English, Romanian
4)	ENERGY PLANNING, STRATEGIES, NUCLEAR INVESTMENTS, INTERNATIONAL ENVIRONMENT FOR NUCLEAR	The energy planning system (energy planning, strategies, investments with focus on nuclear energy)	Participants will learn theoretical notions about energy planning and its necessity, why an energy strategy is needed, how it is done and how investments help to reach the goal of 0 CO2 emissions by 2050.	2 lectures, each 60 minutes	Elena Popescu / Romania	English, Romanian
5)	EURATOM LEGISLATION AND NUCLEAR FRAMEWORK	Legal framework for nuclear	The participants will be able to capture the expertise of a mentor directly involved for 5 years in the development of European legislation in the field of nuclear energy. The mentor worked in the Permanent Representation of Romania next to the EU, Brussels, as an advisor for the nuclear field and international energy relations.	2 lectures, each 60 minutes	Elena Popescu / Romania	English, Romanian
6)	HR	Different Type of Evaluations	The course will provide information about types of HR evaluations.	2-4 hours consisting of presentations,	Madalina Stefanic / Romania	English , Romanian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
				discussions, personalized consultations		
7)	HR	Relations between competencies, job offer, job description, performance objectives and performance appraisals	The course will provide information about nuclear standards (IAEA, INPO), how to determine a list of competencies applied to organization, and the relations between competencies, job offer, job description, performance objectives and performance appraisals etc.	1-2 hours consisting of presentations, discussions, personalized consultations	Madalina Stefanic / Romania	English , Romanian
8)	HR	Selections Interviews	The course will provide information about types of selection interviews, how to develop an effective interview during selection process as an HR professional etc.	1-2 hours consisting of presentations, discussions, personalized consultations	Madalina Stefanic / Romania	English , Romanian
9)	HR	Succession Plan	The course will provide information about nuclear standards (IAEA, INPO), implementation methods, KPIs, motivation instruments, concerns and areas of focus etc.	1-2 hours consisting of: presentations, discussions, personalized consultations.	Madalina Stefanic / Romania	English , Romanian
10)	HR	Talent Management	The course will provide information about nuclear standards (IAEA, INPO), nuclear career paths	1-2 hours consisting of presentations,	Madalina Stefanic / Romania	English , Romanian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			development, methods to develop management staff and their successors etc.	discussions, personalized consultations		
11)	HR	Career Development	The course will provide information about strategizing your career path, planning publications, extracurricular activities, internships, and professional memberships. We will also answer the following questions: How to navigate job market if you do not come from a privileged background? What can you do if finding a job turns out to be challenging? How to not give up after rejections and perceived failures? How to gain confidence in what you do and what you are? How to reduce imposter syndrome? How to boost your portfolio?	2 hours (1 per month) consisting of presentations, discussions, personalized consultations	Valeriia Hesse / Ukraine	English, Ukrainian
12)	HR	Developing research skills & publications	For example, how to produce an outline, collect data, review literature, and produce a clear analysis – to use in a blogpost or policy brief, or to submit to an international peer-reviewed journal.	A 1-2 hour seminar/webinar session, or as many individual conversations as required.	Zenobia Sabrina Homan / United Kingdom	English , Dutch

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
13)	HR	Making the most of your degree and experience (transferrable skills)	For example, working out how to use a background in science to produce effective policy, and how to use a background in humanities to contribute to a technical sector.	A 1-2 hour seminar/webinar session, or as many individual conversations as required.	Zenobia Sabrina Homan / United Kingdom	English , Dutch
14)	LEADERSHIP	Leadership in Nuclear Security, Navigating Gender and Leadership in Male-Dominated Field	The course will provide information about the importance of strong leadership in the nuclear industry, particularly in promoting a culture of safety and security. Additionally, the course will discuss the unique challenges and opportunities for women in leadership roles within traditionally male-dominated sectors, like the nuclear security.	60 minutes	Fatema Alnaqbi / United Arab Emirates	English, Arabic
15)	LEADERSHIP	Ethical Decision-Making in High-Stakes Environments	The course will provide information about the importance of integrity and ethical standards in decision-making within nuclear security.	30 minutes	Fatema Alnaqbi / United Arab Emirates	English, Arabic
16)	LEADERSHIP	International Collaboration and Partnerships	The course will provide a framework on how to share experiences working with international organizations like the US Department of Energy (DOE), National Nuclear Security Administration (NNSA), and World	30 minutes	Fatema Alnaqbi / United Arab Emirates	English, Arabic

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			Institute for Nuclear Security (WINS), and discuss how to establish and maintain effective partnerships.			
17)	LEADERSHIP	Executive Coaching for Team Dynamics	The course will provide strategies that promote positive team behaviors and collaboration within nuclear security teams.	60 minutes	Fatema Alnaqbi / United Arab Emirates	English, Arabic
18)	LEADERSHIP	Unlocking the Power of Connections: Mastering Network Membership for Success	Networking has always been an essential ingredient for success. Recognizing the importance and navigating the challenges of networking requires a strategic and authentic approach. By mastering the art of networking, mentees can tap into a vast pool of opportunities, collaborations, and mentorship.	4 hours	Adeline Yuego / Cameroon	English, French
19)	MENTORING AND MENTEE RELATIONSHIPS (basics)	The importance of the mentor/mentee relationship	The course will provide information about the roles and responsibilities of mentors and mentees. Topics covered will include the different types of mentoring, identifying and creating a mentor network, relationship building, conflict management, and mentoring of different audiences. This course is especially important for young	2 hours	Jason Harris / USA	English

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			professionals wanting to understand how to succeed in their careers through professional, social, and mental balance.			
20)	MENTORING AND MENTEE RELATIONSHIPS (basics)	Shared expectations and mentoring	The course will provide information about how to optimize the mentor/mentee relationship through a shared expectations approach. Participants will develop their own shared expectations guidelines to use with mentors/mentees. Cultural and gender differences will also be explored.	2 hours	Jason Harris / USA	English
21)	NONPROLIFERATION	North Korean nuclear program. Lessons for the nonproliferation and challenge for disarmament	The Democratic People's Republic of Korea (DPRK) took initial steps toward the development of a civilian nuclear program in the 1950s. DPRK became a state party to the Nonproliferation Treaty (NPT) in 1985, but announced in 2003 that it would no longer be bound by the treaty. Since that time, negotiations over the North Korean nuclear program have not resolved the dispute between the DPRK and the international community. North Korea tested a nuclear weapon in	2 lectures, each 60 minutes	Valeriia Gergiieva / Ukraine	English , Ukrainian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			2006 and in 2009. Subsequently the Security Council adopted two Chapter VII resolutions condemning the tests and imposing sanctions. Both the DPRK's withdrawal from the NPT and its nuclear-weapon tests constitute significant challenges to the NPT regime. Mentees will learn about the DPRK nuclear program, what are lessons to be learned for the nonproliferation and challenges for disarmament, in this context			
22)	NONPROLIFERATION	The Iranian nuclear program 1957-2024. Iranian threshold status and cooperation with Russia as current challenges for nonproliferation regime	Iran has been threatening in cooperation with Russia the nonproliferation regime for a long time and it is a key topic for students to understand why and how this poses a risk to the global security environment. In this manner, the program will cover historical background of the Iranian nuclear program, the process and implementation of the JCPOA and the US withdrawal from it. In addition, mentees will be discovering possibilities for the way forward.	2 lectures, each 90 minutes	Valeriia Gergiieva / Ukraine	English , Ukrainian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
23)	NUCLEAR AND RADIOLOGICAL SECURITY	Government-NGO partnerships in enhancing nuclear and radiological security	The course provides an introduction to objectives and engagement of Georgian civil society actors in capacity-building of governmental and professional communities of Georgia in the area of nuclear security and WMD nonproliferation, raising awareness on national level strategic documents and the security-related legislation of Georgia; democratic oversight of Georgia's defense/security sector, security sector reform agenda and future prospects of Georgia's EU and NATO integration	2-4 hours consisting of presentations, discussions, personalized consultations	Tamara Pataraiia / Georgia	English , Georgian
24)	NUCLEAR DIPLOMACY, INCLUDING INTERNATIONAL ORGANIZATIONS AND REGIMES IN NONPROLIFERATION, NUCLEAR RISK REDUCTION, NUCLEAR SECURITY, ARMS CONTROL, AND DISARMAMENT	Any topic of mentee's interest from the list	The course will provide information about the topic of mentee's interest as he / she identifies from the variety of themes and fields Valeriia has worked on throughout her career. <ul style="list-style-type: none"> • U-Factor: Russia's War on Ukraine and the Deterrence vs. Disarmament Discussion. Pragmatic Internationalism; 	4 hours (1 per month) consisting of discussions and personalized consultations, if required	Valeriia Hesse / Ukraine	English, Ukrainian

31)	NUCLEAR SECURITY	Responsibility for violation of the legislation of Ukraine on physical protection	<p>a. Article 7 of the Convention on Physical Protection of Nuclear Materials.</p> <p>b. Chapter XIV of the Law of Ukraine "On the Use of Nuclear Energy and Radiation Safety".</p> <p>c. Article 32 of the Law of Ukraine "On Physical Protection of Nuclear Installations, Nuclear Materials, Radioactive Waste, and Other Sources of Ionizing Radiation."</p> <p>d. Article 171 of the Law of Ukraine "On licensing activities in the field of nuclear energy use".</p>	2 hours consisting of presentations and discussions	Alona Samsonenko / Ukraine	English , Ukrainian
32)	NUCLEAR SECURITY	State supervision of compliance with legislation on physical protection and fulfillment of license conditions	Resolution of the CMU dated 13.12.2013 No. 824 "Procedure for state supervision of compliance with nuclear and radiation safety requirements"	1 hour consisting of presentations and discussions	Alona Samsonenko / Ukraine	English , Ukrainian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
33)	NUCLEAR SECURITY	The legislative system of Ukraine	<ul style="list-style-type: none"> a. Definition of terms: legislation of Ukraine, normative legal act, rule of law. b. Vertical hierarchical structure of domestic legislation on physical protection. c. The Constitution of Ukraine: clarification. d. International treaties of Ukraine: clarification. e. Laws of Ukraine: clarification. f. Legal acts of the President of Ukraine: clarification. g. Regulatory acts of the Cabinet of Ministers of Ukraine: clarification. h. Normative legal acts of ministries and other central bodies of executive power: clarification. i. IAEA recommendations on physical protection: clarification. j. Organizational and administrative documents of licensees: clarification. 	2 hours consisting of presentations, discussions and practice sessions	Alona Samsonenko / Ukraine	English , Ukrainian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
34)	NUCLEAR SECURITY	The role of the IAEA in the structure of international physical security	<ul style="list-style-type: none"> a. Summits on physical nuclear security. b. Series of publications of the IAEA on physical nuclear security. Physical Nuclear Security Recommendations for the Physical Protection of Nuclear Material and Nuclear Installations INFCIRC/225/Rev.5. c. The state regime of physical nuclear security. State regime of physical protection. 	3 hours consisting of presentation, discussions and practice session	Alona Samsonenko / Ukraine	English , Ukrainian
35)	NUCLEAR SECURITY	Ukraine's international obligations in the field of physical protection	<p>International conventions and agreements related to physical protection and ratified by Ukraine, namely:</p> <ul style="list-style-type: none"> a. Law of Ukraine "On International Agreements of Ukraine" b. Agreement between Ukraine and the International Atomic Energy Agency on the application of guarantees c. Convention on Physical Protection of Nuclear Material 	2 hours consisting of presentations and discussions	Alona Samsonenko / Ukraine	English , Ukrainian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			d. Amendments to the Convention on the Physical Protection of Nuclear Material e. International Convention on Combating Acts of Nuclear Terrorism			
36)	NUCLEAR SECURITY	Raising awareness of the importance of international legal instruments for nuclear security and training in drafting national nuclear law with a focus on nuclear security provisions	Raising awareness of the importance of adherence and commitment to the international legal instruments governing nuclear security and implementation of the obligations and recommendations set out in them, as well as training in developing a national law for peaceful uses of nuclear energy and ionizing radiation, with a focus on nuclear security provisions	To be determined according to the purpose and demand	Desislava Spassova / Bulgaria	English , Bulgarian
37)	NUCLEAR SECURITY	Sharing experience and skills related to delivering lectures in international and national legal framework for nuclear security	The best methods and approaches in teaching this complex and technical subject to both lawyers and non-lawyers	To be determined according to the purpose and demand	Desislava Spassova / Bulgaria	English , Bulgarian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
38)	NUCLEAR SECURITY	Government-NGO partnerships in enhancing nuclear security	<p>When it comes to the involvement of NGOs in the field of nuclear security, a lot of progress has been achieved since 2014. Both, the 2014 Nuclear Security Summit (NSS) in the Hague and the last NSS in Washington, DC, in 2016, included notable side events called Nuclear Knowledge Summits which brought together experts from academic and research institutions and other NGOs from all over the world. The purpose of these events, as defined by the World Institute of Nuclear Security (WINS), was to “create a broad platform of experts and NGO support internationally in order to promote nuclear security and to support the NSS process.” Although names of these side-event summits did not bear the word “NGO”, they were commonly referred to as “NGO summits.” Adding the meetings of experts and NGOs communities to the NSS 2014 and 2016 agendas was a significant breakthrough in building NGO-</p>	60 minutes	Margarita Kalinina-Pohl / US	English

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			government partnerships and bridges in the field of nuclear and radiological security. It increased the visibility and role of the non-governmental sector in strengthening nuclear security by complementing existing national and international efforts. Discussion will include concrete examples of partnerships in radiological security between the James Martin Center for Nonproliferation Studies and governmental bodies of several IAEA member states.			
39)	NUCLEAR SECURITY	International Obligations and the Outcomes Based Regulatory Approach	The topic will provide information about: a) International and National Obligations and Commitments b) The Key Elements of Nuclear Security Legislation c) Outcomes Based Regulation (strengths and weaknesses) Delivered through Presentation and Discussion	2 hours	Robert Rodger / UK	English
40)	NUCLEAR SECURITY	Physical Protection System	The topic will provide information about: a) Security Functions	4 hours	Robert Rodger / UK	English

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			<ul style="list-style-type: none"> b) Asset Identification and Consequences c) Secure by Design d) Equipment, People and Procedures e) Vulnerability Assessment f) Threats Delivered through Presentation and Discussion			
41)	NUCLEAR SECURITY AND NONPROLIFERATION	Global security and nuclear nonproliferation	This course aims to cover aspects of current nonproliferation, arms control and disarmament issues, including humanitarian arms control issues, export control of strategic goods etc. Special attention will be paid to explore how international nonproliferation and disarmament law is enforced through national laws in Georgia, and how Black Sea regional partners and neighbors of Georgia contribute to global nuclear nonproliferation objectives, as well as how they act in the international arena to comply and enforce international nonproliferation norms and regulations.	2-4 hours consisting of: presentations, discussions, personalized consultations.	Tamara Pataraiia / Georgia	English , Georgian

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
42)	ORGANIZATION OF INTERNATIONAL WORKSHOPS AND EVENTS	Organizing international workshops and events (challenges, logistics, funding, etc.)	For example, how to reach the right audience and experts, obtain the necessary permissions, coordinate with the venue, and figuring out how to finance it all.	A 1-2 hour seminar/webinar session, or as many individual conversations as required.	Zenobia Sabrina Homan / United Kingdom	English , Dutch
43)	ORGANIZING INTERNATIONAL WORKSHOPS AND EVENTS	Organizing International Workshops and Events	This mentorship will focus on the best practices for organizing international workshops and events, including planning logistics, coordinating with stakeholders, and managing challenges associated with global events.	1-2 hours	Fatma Cengiz / Turkiye	English, Turkish
44)	RADIOLOGICAL SECURITY	Radiological Security	This course will provide insight into protecting and managing radioactive sources, including orphan sources and materials out of regulatory control (MORC). It will cover international guidelines such as the IAEA's Code of Conduct on the Safety and Security of Radioactive Sources.	90 minutes	Fatma Cengiz / Turkiye	English, Turkish
45)	RADIOLOGICAL SECURITY	Radiological security	Each country has radioactive sources which are used in medicine, industry, research, and other applications. Every year, large amounts of radioactive sources go	90 minutes	Margarita Kalinina-Pohl / US	English

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
			<p>missing worldwide. A number of commonly used isotopes in radioactive source, including Co-60, Cs-137, Am-Ir-192, Am-241 are of security concern and can be used in radiological dispersal devices (RDD). Of particular concerns are so-called "orphan" sources and other material out of regulatory control. IAEA provides international guidance to member states based on the Code of Conduct on the Safety and Security of Radioactive Sources. The radiological security field encompasses a wider range of activities aimed at 1) protecting radioactive sources; 2) safely removing and disposing of disused radioactive sources; 3) tracking down orphan radioactive sources and MORC (material out of regulatory control), and 4) reducing global reliance on high activity radioactive sources by promoting alternative technologies, and other activities.</p>			

Item no.	Area of mentorship	Topic	What you can learn?	Duration	Mentor / Country	Language
46)	TRAINING	Active learning methods in teaching and training	The course will provide information about basic principles of the science of learning, the concept of active learning, and the different active learning formats, methods, and resources.	~ 2-6 hours (depending on needs) consisting of presentations, discussions, consultations.	Tatyana Novossiolova / Bulgaria	Bulgarian, English, Russian
47)	TRAINING	Creating educational materials and training courses	For example, supporting your organization in updating its training programs or introducing new materials – think about a 1-day internal training session, or a much bigger multi-day international effort.	A 1-2 hour seminar/webinar session, or as many individual conversations as required.	Zenobia Sabrina Homan / United Kingdom	English , Dutch
