

## Jason Harris

(He/Him)

United States of America

Dr. Jason T. Harris is Professor of Radiological Health Sciences in the School of Health Sciences and Director of the Center for Radiological and Nuclear Security (CRANS) at Purdue University in the United States. He also serves as the Associate Dean of Graduate Programs and Online Education in the College of Health and Human Sciences. His research interests are in several areas related to environmental and reactor health physics, radiation detection and measurement, and nuclear security. He has over 25 years of experience in nuclear science education, mentoring more than 100 graduate students and young professionals. He is also active in developing mentorship and diversity, equity, and inclusion (DEI) programs for his college.

**Participation at International relevant Conferences / Workshops / Benchmarking / Courses / Publications:** Dr. Harris has authored or co-authored over 75 peer-reviewed papers or proceedings and given more than 100 conference presentations nationally and internationally. He frequently speaks at IAEA conferences and has given presentations on gender equality and mentoring of diverse groups.

He can provide mentorship in English.

### MENTORSHIP TOPICS

#### Topic 1: The importance of the mentor/mentee relationship

*The course will provide information about the roles and responsibilities of mentors and mentees. Topics covered will include the different types of mentoring, identifying and creating a mentor network, relationship building, conflict management, and mentoring of different audiences. This course is especially important for young professionals wanting to understand how to succeed in their careers through professional, social, and mental balance.*

**Duration: 2 hours**

**Topic 2: Shared expectations and mentoring**

*The course will provide information about how to optimize the mentor/mentee relationship through a shared expectations approach. Participants will develop their own shared expectations guidelines to use with mentors/mentees. Cultural and gender differences will also be explored.*

**Duration: 2 hours**
