MENTORSHIP TOPICS

Topic 1. Raising awareness of the importance of international legal instruments for nuclear security and training in drafting national nuclear law with a focus on nuclear security provisions

Raising awareness of the importance of adherence and commitment to the international legal instruments governing nuclear security and implementation of the obligations and recommendations set out in them, as well as training in developing a national law for peaceful uses of nuclear energy and ionizing radiation, with a focus on nuclear security provisions

Duration: to be determined according to the purpose and demand

Topic 2. Sharing experience and skills related to delivering lectures in international and national legal frameworks for nuclear security

My work as a lecturer in international and national legal frameworks for nuclear security gave me the opportunity to identify the best methods and approaches in teaching this complex and technical subject to both lawyers and non-lawyers

Duration: to be determined according to the purpose and demand
